The screenshot displays the RAGFlow web application interface. At the top, there's a navigation bar with the RAGFlow logo and several menu items: Knowledge Base, Chat, Search, Agent, and File Management. The user is logged in as 'izwjva'. The main content area is titled 'Knowledge Base / Dataset'. On the left, there's a sidebar with options: Dataset (selected), Retrieval testing, and Configuration. The main area shows a message: 'Dataset Please wait for your file to finish parsing before starting an AI-powered chat.' Below this, there's a table with columns: Name, Date, Chunk Method, Enable, Parsing Status, and Action. The table contains one entry: 'resume.txt' with a date of '2025 01:05:44', chunk method of 'General', and a parsing status of 'SUCCESS'. At the bottom right, there's a pagination control showing 'Total 1' and '1 / page'.

Name	Date	Chunk Method	Enable	Parsing Status	Action
resume.txt	2025 01:05:44	General	<input checked="" type="checkbox"/>	SUCCESS	<a href="#">Refresh</a> <a href="#">Edit</a> <a href="#">Delete</a> <a href="#">Download</a>
