

# PayPal CN, Stripe and Databricks

## PayPal CN

- Website: <https://www.paypal.cn>
- Required to upload a national identity card
- Face scanning is required
- Need to provide a business URL (e.g., shop or social media)
- Must input a mobile phone number

## Stripe

- Website: <https://stripe.com>
- China is not available in the list of supported countries
- For Singapore registration, a FIN (Foreign Identification Number) is required

## Databricks

- Website: <http://databricks.com>
- Professional mode requires linking to a cloud provider (AWS, Azure, or Google Cloud)
- Creates a stack in your AWS environment
- Once AWS stack creation is complete, it becomes accessible in the Databricks workspace
- Supports payment with China-issued Visa cards
