

डेटेसेट को आजमाना

http://localhost:8000

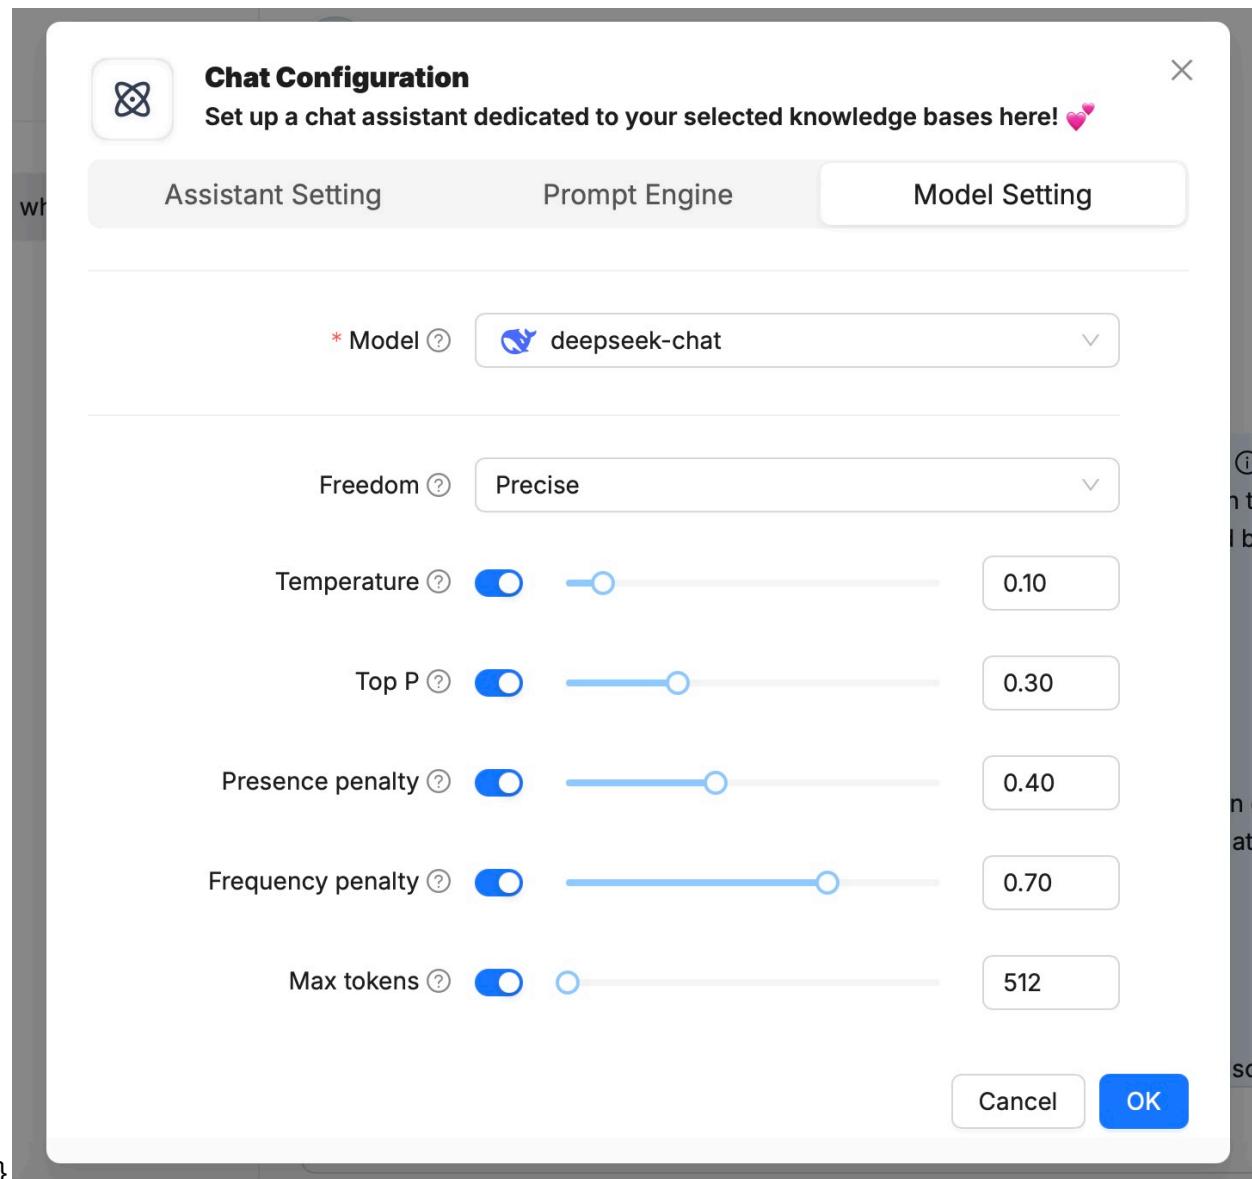

“रेत्रीवल-टेस्टिंग-डेटेसेट” को पार्स करने की अनुमति नहीं है। मूल रूप से, फ़ाइल नाम जिसमें “-” शामिल है, स्वीकार्य नहीं है। इसे “रेत्रीवल-डेटेसेट” नाम से बदलना होगा।

मैंने उत्पाद का परीक्षण किया, और यह बहुत अच्छा प्रदर्शन किया।

The screenshot shows the RAGFlow application interface. At the top, there is a navigation bar with the RAGFlow logo, tabs for Knowledge Base, Chat, Search, Agent, and File Management, and language settings for English. Below the navigation bar, the page title is "Knowledge Base / Dataset". On the left, there is a sidebar with a user profile picture, the name "lzwjava", and three buttons: "Dataset" (selected), "Retrieval testing", and "Configuration". The main content area is titled "Dataset" and contains a message: "Please wait for your file to finish parsing before starting an AI-powered chat." Below this, there is a table for managing datasets. The table has columns: Name, Date, Chunk Method, Enable, Parsing Status, and Action. A single row is shown for a file named "resume.txt" with the following details: Name: resume.txt, Date: '2025 01:05:44', Chunk Method: General, Enable: Yes (switch is on), Parsing Status: SUCCESS, and Action: a set of icons. At the bottom right of the table, it says "Total 1" and "10 / page".
