

尝试 RAGFlow

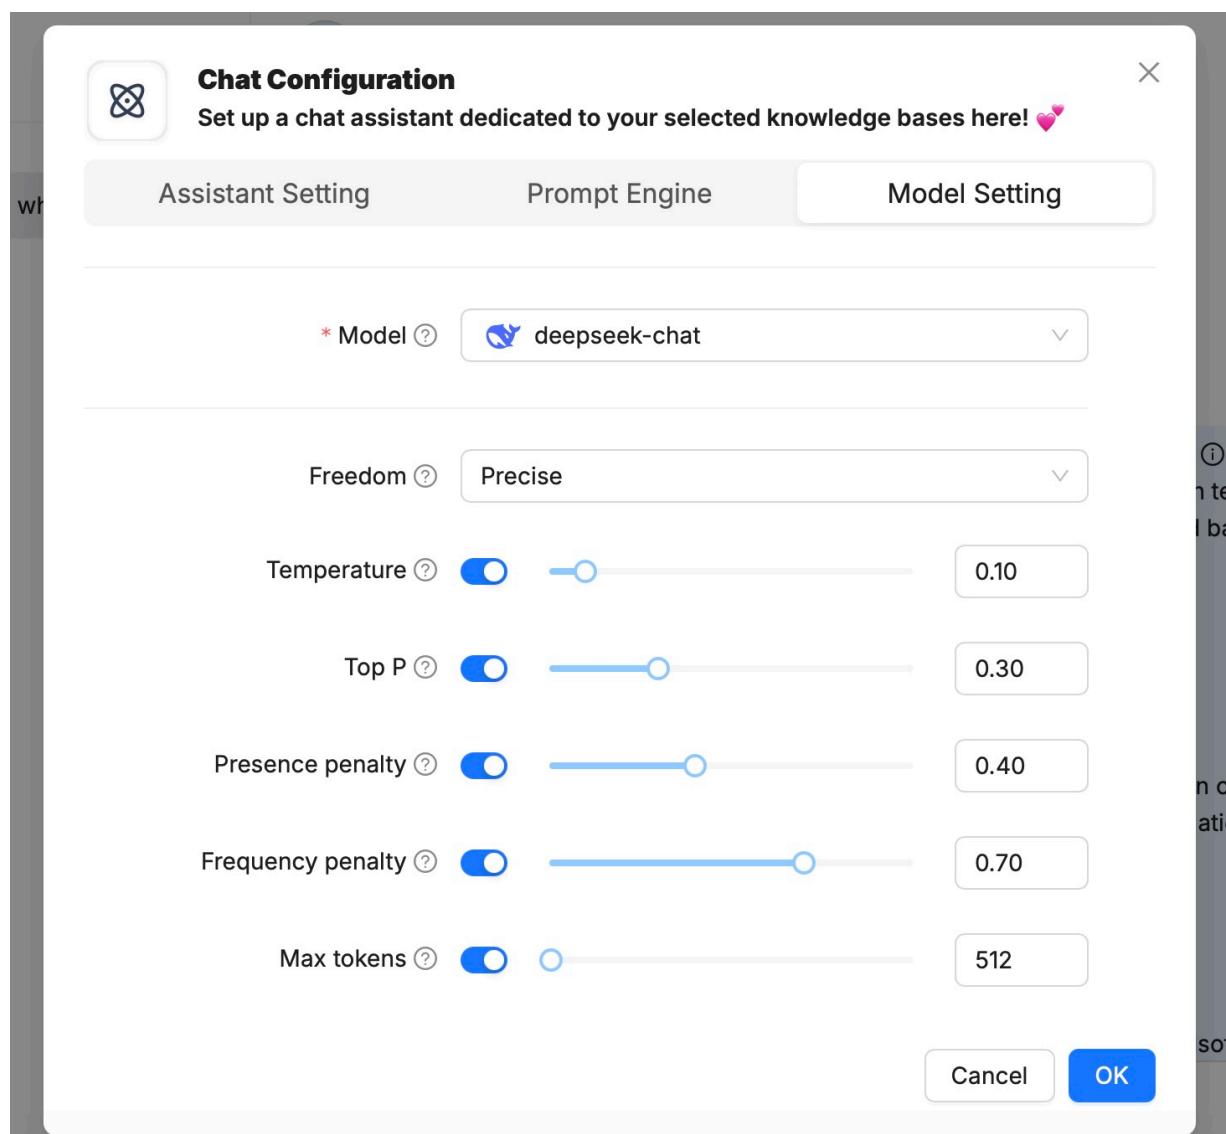

<https://ragflow.io>

“resume-en.txt” 不允许解析。基本上，包含 “-” 的文件名是不被接受的。需要将其重命名为“resume.txt”。

The screenshot shows the RAGFlow web application interface. At the top, there is a navigation bar with the RAGFlow logo, a user profile icon, and links for Knowledge Base, Chat, Search, Agent, File Management, and a language selector set to English. Below the navigation bar, the main area is titled "Knowledge Base / Dataset". On the left, there is a sidebar with three tabs: "Dataset" (selected), "Retrieval testing", and "Configuration". The main content area displays a table of datasets. The table has columns for Name, Date, Chunk Method, Enable, Parsing Status, and Action. One row is visible, showing "resume.txt" as the name, the date "2025 01:05:44", "General" as the chunk method, the "Enable" switch turned on, a "SUCCESS" status, and several action icons. At the bottom right of the table, there are pagination controls showing "Total 1" and "10 / page".
