Job Application for Full Stack Engineer Position

Dear Hiring Manager,

About Me

I am Zhiwei Li, a highly skilled and motivated Full Stack Engineer with extensive experience in backend development, cloud computing, and software engineering. Over the past 9.5 years, I have worked on diverse projects spanning industries such as fintech, e-commerce, and education. My expertise lies in designing and implementing scalable, reliable, and efficient solutions using technologies like Java, Spring, and MySQL, while also having strong knowledge of frontend frameworks like Vue and React.

Why Your Company?

Your company's commitment to innovation and excellence resonates deeply with my personal and professional values. The prospect of contributing to projects that make a meaningful impact aligns perfectly with my goal of solving complex challenges and creating cutting-edge solutions. I am particularly impressed by your organization's focus on leveraging modern technologies to drive business growth, and I am eager to bring my skills to your dynamic team.

Why Me?

With over 7 years of corporate experience and 2.5 years as a freelancer, I bring a unique blend of technical expertise and entrepreneurial spirit. My previous roles have equipped me with the ability to lead projects from conception to deployment, optimize backend systems, and implement CI/CD pipelines for seamless integration. Additionally, I have a proven track record of troubleshooting cloud environments on AWS, Azure, and Alibaba Cloud, making me well-suited to address your organization's technological challenges.

Key Achievements

- Spearheaded the development of a knowledge live streaming platform, gaining 30,000 users and hosting 80+ lectures, utilizing PHP, MySQL, and Redis.

- Contributed to the Auto Top Up feature for HSBC PayMe, ensuring seamless fund transfers and system reliability during cloud migration.

- Developed a comprehensive AI-powered story bot using Claude's API, Flask, and React, integrating modern monitoring and log management tools like Prometheus and the ELK stack.

- Authored technical blogs and participated in competitive programming, sharpening problem-solving skills with over 1,000 algorithm problems solved online.

Next Steps

I am excited about the opportunity to contribute to your organization's success. I would welcome the chance to discuss how my skills and experiences align with your needs. Please find my résumé attached for your review. I look forward to hearing from you.

Sincerely,

Zhiwei Li
