Update Guide

To keep your system and apps up to date, follow the steps for your platform:

- iOS: Go to the App Store and click "Update All Apps."
- Android: Open Google Play Store and click "Update All."
- macOS: Update apps via the App Store and refresh Homebrew libraries with `brew update`.
- Ubuntu: Run `sudo apt update` in the terminal to update packages.
- OpenWrt: Download the latest package and use the GUI to install the update.
